10/17/72 Howard, Glad you called me in Wilmington for it was good to talk to you. Felt I had to respond to Sylvia pronto, and if not to all, to enough./Unless I hear that you have changed your mind, I'll keep the CIA foundations file for you. If I can get it indexed, which I doubt, I'll have it done. I do think it will make both a thesis and a book. It is an increasing publishing relaity that thesis on topical issues are welcome. Most recent examples, McCoyon SE.sia horse, the new thing on Kissinger (review and interview in 3rd class mailing to be sent on accumulation). If you have a school mate with the time and interest, you can take the file when you are here during the holidays. I have much elsewhere, in other files, that is relevant. Artciles in other files, books, etc. There is a current study of foundations by the guy who ran the African American, etc. Best, HW
